## CHAIRPERSON'S REPORT

Our Executive Officer Barry Switzer and his staff in Kim Norris, Gene Parini, Chris Stanlake, Dawn Martin, Brenton Dinsdale, Daniel Poynton and Matt Ogilvie are congratulated for their outstanding efforts in 2012-13.

I would also like to take the opportunity to thank all members of the Board both outgoing and incoming for their individual contribution and time given in providing governance. The commitment of the Board is essential to the success of GippSport.

GippSport has maintained an awareness of the changing environment in the Sport and Recreational area. We have now delivered the Access for All Abilities Program for almost six years and have been informed that we will continue with this until June 2015.

Responsibilities and accountabilities in service and program delivery outcomes were critical components to the success of GippSport this year, and the board thanks all staff for their continued dedication, commitment and enthusiasm.

GippSport has been delivering a new program entitled Healthy Sporting Environments (HSE) which is funded by VicHealth until the end of June 2014. We have a target of working with fifty sporting clubs and addressing six preventable illness risk factors. Forty clubs have signed onto the program and we are confident of reaching our target by the end of this calendar year. Intensive evaluation of the program is taking place with a view to extending funding over a longer period of time.

The outcomes of the Regional Sport and Recreation (RSR) Program funded by Sport and Recreation Victoria exceeded all expectations as did the delivery of the Good Sports Program. Regional Sports Network Victoria has

developed a position paper asking for consideration to be given to increasing the funding provided for the RSR Program but this has been unsuccessful at this stage.

The overall organisational health of GippSport was maintained at a high level, with management processes, development opportunities and reporting processes constantly being delivered and reviewed. Information management and marketing of services and programs via the media, a new website, facebook and newsletters has been innovative and highly professional.

GippSport has continued to form new partnerships, value adding to aims and objectives to improving people's health and wellbeing through their participation in sport and recreation. All staff members are working over and above what is expected to satisfy external partners.

I am confident that GippSport will continue to deliver high quality service to the Gippsland Regional community now and into the future.

**Ricky Ross APM**  
**Chairman 2012-13**

## **EXECUTIVE OFFICER'S REPORT**

### **Friends of GippSport**

I am delighted to be reporting to you on some of the highlights and challenges over the period from 1 July 2012 to 30 June 2013.

This is the Twenty- Second Annual Report of this Gippsland Regional Sports Assembly and I continue to enjoy being associated with the ongoing development of this organization since I was appointed Executive Officer in February 2004.

During the financial year we have maintained offices in Moe, Sale, Bairnsdale and Inverloch with a staffing schedule of eight full time people. A staff member also used office space in the Baw Baw Shire Office at Warragul

Once again we signed off on agreements with Sport and Recreation Victoria (SRV) - (Access for All Abilities and Regional Sport and Recreation), VicHealth (Healthy Sporting Environments)) and Good Sports for the financial year 2012-13. This was the first year of the Healthy Sporting Environments (HSE) Program with increased funding from VicHealth. Our ongoing involvement with Good Sports will be continually monitored.

We continue to make every effort to develop very positive relationships with our local government areas. The establishment of a close liaison with the Recreation Officers and Community Development staff continues to be a priority for GippSport in all six municipalities. GippSport remains an active member of Regional Sports Network Victoria (RSNV).

I must pay tribute to our Chairman Ricky Ross and all members of the Board of Management for their contribution to our organization in a rapidly changing environment. Over the next few months the Board will be developing a new strategic plan.

We are now in our sixth year of providing the Access for All Abilities Program. I extend my thanks to Daniel Poynton for his excellent

leadership of this program and to Brenton Dinsdale for his dedicated contribution in East Gippsland and Wellington. There continue to be a number of challenges associated with this program but some great work is being done across the Gippsland Region by Dan and Brenton. A review of the program was carried out by Sport and Recreation Victoria (SRV) and recommendations for the future were handed down late in 2012. It was decided that Regional Sports Assemblies would continue to deliver the program in regional Victoria and changes were made at the metropolitan level.

Maintaining our staffing profile continues to be a major priority for GippSport. We highly value the opportunity to have staff members located at Latrobe Leisure Moe Newborough and thank the staff and Latrobe City for their continued support. The Wellington Shire continues to provide great support to our Program Coordinators, based at the Gippsland Regional Sports Complex. We also appreciate the fact that the Baw Baw Shire has enabled our staff to use office space at Warragul.

GippSport has clearly established processes and documentation in relation to awards, staff employment agreements, position descriptions, staff appraisals, individual work plans, staff meetings and professional development. Staff meetings are held on a monthly basis and provide a most important forum for team building, communication, monitoring and professional development. Staff appraisal processes are firmly established and every staff member is regularly provided with feedback on their performance. We continue to use the Community Sector Workforce Capability Framework which informs all position descriptions and assists with staff performance appraisals.

I want to pay tribute to all GippSport staff members for their excellent work during 2012-13. I am delighted to report that we had no staff changes at all during 2012-13. We are now spending more time on Targeted Club Support and making use of the Club Help online resource. GippSport has also conducted a number of online training sessions for clubs state wide.

Dawn Martin is based in Wellington and has provided fine leadership of the new HSE program funded by VicHealth. The reporting expectations are high and Dawn has ensured effective, collaborative and timely team responses.

Gene Parini who is based in our Inverloch office is doing some fine work in the Bass Coast and South Gippsland Shires and heading up our Regional Sport and Recreation Program. Gene takes responsibility for our e News and does an outstanding job with this.

Chris Stanlake continues to undertake a leadership role in Good Sports and is doing an excellent job of this. Chris also provides strong support to clubs and partners in Latrobe City and Baw Baw. He has played a leading role in the creation of the Gippsland Sports Network which has added real value to the Sport and Recreation sector in Gippsland.

Matt Ogilvie is based in our Bairnsdale office and has enthusiastically engaged with an increasing number of sporting clubs and agencies in East Gippsland. He has also further strengthened GippSport's partnerships with a number of key stakeholders in the area.

Our Administration Officer Kim Norris, who has now been with us for over eight years, continues to do a fine job and carries out a wide variety of tasks. The support she provides to all staff and the Executive Officer is greatly appreciated. Her management of the Most Disciplined Player Program and Thank You Volunteer Program is very much appreciated.

As an organization we must continue to value sporting clubs and associations as an integral part of our Gippsland community as well as developing partnerships with a wide variety of other community organizations. In particular the roll out of the Healthy Sporting Environments

Program and the Access for All Abilities Program will continue to be a challenge for us.

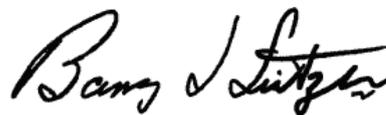

We continued to make a number of technological advances during the year and all staff members are now very competent in the use of Office 365, Customer Relationship Management and Club Help. I would like to acknowledge Geoff Duffell whose advice and hands on support is really valued by all at GippSport. Dan Poynton continues to provide brilliant assistance to all staff and our organization in the ICT area. He is playing a leading role at a state wide level in the development of a new website for RSA's.

We have achieved all targets set out in our Strategic Plan which is a real credit to all staff. In fact in a number of programs we have over achieved.

Our mission statement will continue to provide the focus for the work we carry out on behalf of the 240,000 people in the Gippsland Region.

*"GIPPSPORT WILL PROVIDE LEADERSHIP TO STRENGTHEN THE CAPACITY OF COMMUNITIES TO IMPROVE THE HEALTH AND WELL BEING OF PEOPLE THROUGH PARTICIPATION IN SPORT AND ACTIVE RECREATION IN GIPPSLAND"*

I look forward to working with the GippSport Board and Staff as we address the challenges of the future. The next twelve months will provide many exciting opportunities for this organization and we look to the future with great enthusiasm.

**BARRY SWITZER**  
EXECUTIVE OFFICER

## Regional Sport & Recreation (RS&R)

GippSport has had another successful year within the RS&R program and our 12 month report was accepted by the Department of Planning and Community Development (DPCD).

**Newsletter** – Our Supporting Country Sport newsletter went out to 964 recipients, with 58 new signups for 2012/13. The newsletter name is well recognized within the Gippsland sporting community. It will be published ten times in the next financial year and continue to provide a balance between news stories, industry updates, event and club promotions as well as training opportunities for club volunteers.

**Database** – The uptake of our online database and directory, “Sportslink”, is a challenge as it has been across Victoria with other Regional Sports Assemblies. As of June 2013, 367 organizations have signed up. We didn’t continue to play an active role in encouraging sporting clubs to register as from 30 September 2013. “Sportslink” has been made redundant and will be replaced by a new website.

**Website** – Overall the site had just over 42,000 hits from 1 July 2011 to 30 June 2012.

Table: Webpage Statistics (1/7/12 – 30/6/13)

Page	Hits	Percentage
Home Page	17,638	41.1%
Grants	3,911	9.1%
Club Help	1,722	4.0%
Contact Us	1,283	3.0%
Access for All Abilities	906	2.1%

**Club Help Website** – The new Club Help website has been a valuable resource for clubs to utilize with the assistance of GippSport. As of 30 June 2013, 59 Gippsland clubs had completed an assessment on the Club Help website. Club Help is strongly supported by Sport and Recreation Victoria and Leisure Networks.

A number of State Sporting Associations will be recommending that their clubs refer to Club Help in the future.

**Media** – GippSport continues to maintain a high media presence with regular articles in most

Gippsland newspapers as well as coverage on radio and television. Monthly live segments have occurred on ABC Gippsland Radio and we have again submitted weekly articles for the all the Football Programs across the Gippsland Region.

The use of Facebook and twitter allows us to directly communicate with local media outlets as they follow our feed.

**Workshops & Information Sessions** – GippSport has delivered over the target amount of sessions that were set in our plan. A higher than normal amount of Responsible Service of Alcohol courses and the hosting of subsidized Food Hygiene courses across Gippsland is the reason for this.

Table: GippSport Workshops

Name	Sessions	Clubs	Participants
Active Club	8	82	112
First Aid	3	15	26
Information Forums	27	106	162
Welcoming & Inclusive Club	3	3	4
RSA’s	21	63	393
Food Hygiene	4	26	51
<b>TOTAL</b>	<b>66</b>	<b>295</b>	<b>748</b>

**Club Support** – GippSport has continued to provide quality support to clubs in Gippsland on a range of issues including Grants, Volunteering, Committee Governance as well as Alcohol Management and Welcoming and Inclusive Clubs.

The three-tiered model for support has enabled us to analyze our output closely and gain a better understanding of our effectiveness.

The support is now recorded across three levels. Brief one off support or enquiries (Level 1), up to three hours support (Level 2) and over three hours (Level 3).

For the clubs receiving Level 2 & 3 support we are focused on outcomes. This has assisted coordinators in reaching results so the club contact is a valuable one.

	<i>Target</i>	<i>Actual</i>
<b>Level 1 (One-Off Enquiries)</b>	150	208
<b>Level 2 (Up to 3 hours)</b>	8	22
<b>Level 3 (Over 3 hours)</b>	4	7

**Volunteers** – Currently 146 clubs participate in our Thank You Volunteer Program and receive cards for club volunteers. In addition clubs have the opportunity to promote a Club Volunteer of the Year.

GippSport also continues to feature a Volunteer of the Month in the Supporting Country Sport

e-Newsletter with the volunteer receiving a \$50 gift voucher.

**State Sporting Associations (SSA)** – GippSport continues to support SSA involvement in Gippsland. The establishment of the Gippsland Sports Network has strengthened these partnerships. We now have sporting industry people in Gippsland identifying key synergies and opportunities to work together to promote sport.

**Regional Sports Network Victoria (RSNV)** – GippSport continues to be actively involved with RSNV and many initiatives at this level have had significant impact on us locally. RSNV is currently developing a charter to strengthen the strategic direction and operations of the organization.

### Thanks

Thanks to our staff for their contribution to the RS&R Program this year and ensuring we provide valuable and responsive service to sporting clubs cross Gippsland.

### The Year Ahead – 2013/2014

It promises to be another very exciting year ahead. With the Club Help website gaining more exposure, this will provide an opportunity to work more closely with individual clubs and focus on tangible outcomes.

We look forward to any support, suggestions, partnerships and collaboration to continue this good work.

**Gene Parini/Chris Stanlake**  
**Manager - Regional Sport & Recreation**

## Annual Report 2012/2013 Healthy Sporting Environments (HSE)

With great gusto GippSport launched the VicHealth Healthy Sporting Environments (HSE) program at the Traralgon Golf Club in early September 2012. This was the first of many media items for the program for 2012/2013.

The program looks at six aspects of club life – responsible use of alcohol, UV protection, inclusion, safety and support, reducing tobacco use, healthy eating and injury prevention and management. The aim of the program is to create safe, accessible, inclusive and equitable environments that support participation at all levels. There is also an aspirational aim of increasing the participation of priority populations in community sport and recreation, in particular people with disabilities, Indigenous Australians, culturally and linguistically diverse communities and women and girls.

At the end of June 2013, approximately 40 clubs had registered for the program. The location of clubs ranged from Wonthaggi to Swifts Creek. Many different sports were represented with the most coming from the football/ netball clubs.

We are already seeing much change within clubs. Clubs have happily embraced adding healthier items to their canteen menus and changing their menu signage to highlight these items. Clubs have introduced salad rolls, soup, toasted sandwiches, fruit salad and pure fruit juices. The feedback to clubs by members and spectators has been positive.

GippSport provided subsidised training on Food Handling to clubs to assist them meet the requirements of this module as well.

Most of the 40 clubs have completed an Injury Prevention assessment. This provides us and the club with the opportunity to look at their practices and see what improvements can be made. Clubs have displayed clear signs about where they are located in case an ambulance needs to be called and have funded people to attend first aid courses facilitated by GippSport.

Some clubs have conducted Shade Audits of their facilities and at least one club was successful in gaining a VicHealth Active Club Grant for portable shade. Many summer clubs are displaying signs showing the UV levels for the day.

Across South Gippsland and Bass Coast there are a range of sports signed up to the HSE program including windsurfers, soccer, gymnastics, golf and cricket clubs.

There are two table tennis clubs and one of these is the Leongatha Table Tennis Association. They have made tremendous progress and are very supportive of the many aspects of the HSE program. Initially the club focused on the Injury Prevention and Inclusion module. The club membership numbers have increased and they have been successful in a number of grants which were supported by their involvement in the HSE program. The club has registered as a Level O Good Sports Club and is now starting to look at how some healthy eating messages can be incorporated into the club.

Since the HSE program launched in September 2012 there have been 11 clubs sign up to the program in East Gippsland. They have “Given their club the edge” and ensured their club will move forward by creating healthier sporting environments for their members, players and supporters.

There have been some significant changes implemented by these clubs over the last year

ensuring their club is sustainable on and off the field into the future.

The St Mary's Nagle Cricket Club have acquired two grants while in the program, including a Volunteer Grant and an Active Club Grant which will be used to purchase portable shade to help spectators, members and players shelter from the sun and harmful UV rays during games. By completing the UV module and Sun Smart shade audit as part of the program, these documents were used to support the clubs ultimately successful applications.

The Healthy Sporting Environments team for 2012/13 of Chris, Gene and Matt have taken on the challenge to engage with clubs to support them to work through the program standards. There have been some fantastic outcomes for each of the team and my thanks go to them for getting the program established in Gippsland. We are looking forward to continuing the work through 2013/2014.

**Dawn Martin**  
HSE Manager

*St Mary's Nagle Cricket Club*

GippSport has great support from each of our Local Government areas, the Primary Care Partnerships, Gippsland Women's Health Service and the Community Health Services. We have been able to work in partnership around healthy eating workshops and access to sporting grounds to display signs.

VicHealth and the major partners – Good Sports, QUIT, SunSmart – have assisted with training and resources for GippSport staff to support the program. The resources are also available to clubs to assist them become healthier.

We are also involved with the evaluation of the program through Ernst and Young. We have completed a report and interview through this process.

## GOOD SPORTS PROGRAM

The Good Sports program is a partnership between the Australian Drug Foundation (ADF), national, state, regional, local sports bodies and the government sector. It aims to assist clubs to manage alcohol responsibly. GippSport is a Community Partner with Good Sports and delivers the program across the Gippsland Region.

In 2012-13 GippSport achieved **70** club accreditations which was the negotiated target. At the end of 2012-13 there were **161** clubs across Gippsland committed to the Good Sports program, which was **18** up on the previous year.

The tables below indicate where the clubs are based and how many clubs are at the different accredited levels of the program as of 30 June 2013.

<b>Registered</b>	4
<b>Participating</b>	1
<b>Level 0</b>	9
<b>Level 1</b>	30
<b>Level 2</b>	31
<b>Level 3</b>	86
<b>Under review</b>	0
<b>TOTAL</b>	<b>161</b>

Clubs Registered in:	
Bass Coast	14
Baw Baw	24
East Gippsland	16
Latrobe	45
South Gippsland	26
Wellington	36
<b>TOTAL</b>	<b>161</b>

GippSport also facilitated **21** Responsible Serving of Alcohol (RSA) courses across the Gippsland Region which enabled **393** community sporting club members to gain their RSA certificate.

One  
Liquor

Licensing seminar was conducted in Leongatha, which attracted **12** participants.

*Rod Glenn-Smith (Good Sports Victorian Manager) presenting Peter Linton from Yinnar Football Netball Club with their 10 year certificate.*

**Chris Stanlake**  
Good Sports Manager

## MOST DISCIPLINED PLAYER PROGRAM

The Most Disciplined Player Awards program continues to be well received by clubs and schools. The program encourages good sportsmanship and to abide by the rules of the competition. Over 40 clubs have supported the MDP program this year with GippSport distributing 1600 weekly certificates and 64 end of season framed awards.

The winners of the Most Disciplined Player Scholarships for 2012-2013 were Sophie Membrey (Traralgon Football Netball Club) and Nicholas Wozniak (Maffra Junior Football Club).

Both Sophie and Nicholas received cheques for \$400 while their clubs received \$100 each for nominating them.

Thank you to McDonalds Family Restaurants and the Victoria Police for their continued support of this program.

**Kim Norris**  
**Most Disciplined Player Manager**

## ACCESS FOR ALL ABILITIES

This financial year was an extension in funding to the previous three year term with the Department of Planning and Community Development – Sport & Recreation Victoria considering some significant changes for the Access for All Abilities Program long term.

Across all six LGAs of Gippsland, GippSport has exceeded our agreed targets and through this have been able to provide some exceptional opportunities to people with disability to try and then participate in a range of sports.

The Access for All Abilities program has four key objectives that GippSport needs to report against;

1. **Build the capacity of the sport and recreation sector to deliver sustainable inclusive participation opportunities**
2. **Foster and develop sustainable partnerships and networks to enhance access and inclusion in the sport and recreation sector**
3. **Influence the planning and development of accessible and inclusive sport and recreation environments, policies and strategies**
4. **Promote awareness of the availability and benefits of active participation**

Key achievements that have been delivered within these four objectives include:

- GippSport directly worked with 38 clubs and centres to deliver inclusive participation opportunities within their club.
- An average of over 1000 participants in programs supported by GippSport for a total of over 9700 participation hours across the year.
- Successfully developed new and strengthened existing partnerships across the region with State Sporting Associations, Local Government Areas, Disability Service providers.
- Seven facility Access Audits conducted on community sport and recreation facilities across the region.
- Strengthened our social media and online presence to both advertise opportunities and communicate with individuals to ensure a greater awareness of the opportunities available across Gippsland.

### Other Access for All Abilities Highlights

**Bass Coast Shire – Bowlopolis Tenpin Bowling**

Partnering with Phillip Island Tenpin Bowling Centre this program delivered an eight week skill development program for 36 individuals from Bass Coast and South Gippsland Specialist Schools and Yooralla First Base Leongatha. A short animated cartoon series taught participants the rules, etiquette and provided information on skill development, and when partnered with the exceptional coaching provided by the centre this resulted in some exceptional results for the participants. A great program.

**South Gippsland Shire – Korumburra Recreation Centre Access Appraisal**

GippSport was engaged by Hands on Community Solutions to provide an access audit to add as an appendix to a master plan that was being developed for the facility. It is pleasing to see that all the recommendations that GippSport provided in this process have been adopted in the final master plan Strategic Goal 3 - Facilities: 3.2 - Implement the recommendations of the GippSport Access Audit within resource level and in conjunction with the facility improvement plan. Responsibility: Committee of Management; Timeframe: 2015 (A staged plan is recommended in the GippSport Access Audit)

## **Baw Baw Shire – RecSpo**

This has been a Vision Australia event that GippSport AAA has supported, this year an agreement was reached resulting in GippSport hosting and organising the event. It was hoped that this would attract more participants, potentially people who use alternative support organisations.

The day was a huge success. 45 participants with disability attended, 30 of whom had some form of vision impairment. There were also 75 school students who attended using the day as disability awareness training. The sports which were showcased included Goalball, Tandem Cycling, SWISH, Blind Tennis, Blind Cricket, Blind Soccer and carpet bowls. Strong partnerships with local clubs were formed to present the activities.

## **Latrobe City – Southside JFC All Abilities Football Program**

After being contacted by a very proactive parents group from the Latrobe Special Development School, GippSport has partnered with Southside Junior Football Club to deliver a junior all abilities football program. Initially 5 participants with parents started in the program. The club has been exceptional in developing a new membership stream for the participants. GippSport has successfully assisted the club to receive a VicHealth Active Club Grant and a Latrobe City Community Grant to complement the program with equipment and facility upgrades to ensure accessibility is improved. The program finished the season with 19 children and their respective parents participating.

## **Wellington Shire – Sale to Sea Kayak Challenge**

In March 2013 the Sale to Sea disability kayak challenge was held with over 60 kayakers participating. The challenge aims to raise awareness of how people with disability can overcome adversity by paddling 120 kilometres

from the Port of Sale to Lakes Entrance over four days.

GippSport AAA partnered with Wellington's Rural Access Project Officer to host three come and try kayak sessions before the event. Two were held at the Maffra outdoor pool with the third held at the Sale Rowing Club. This gave six people with disabilities the chance to try kayaking and develop their skills before the event. Over the come and try events participants learnt necessary water safety and kayaking techniques that were needed to participate in the challenge. GippSport AAA workers were then able to support two people with disabilities to participate in the challenge by paddling over the first two days in a tandem kayak. Both really enjoyed their time on the water, and the opportunity to socialise with others embarking on the challenge.

The next Sale to Sea disability kayak challenge will be held in 2015. Between now and the next challenge, GippSport AAA worker will support the Sale to Sea Committee in promoting their event. This will include having kayaking come and try days prior to the event, and having them as part of other events such as 'Inspired by the Lakes' to be held in Sale later this year.

## **East Gippsland Shire – Junior United Mentoring Program**

Basketball Victoria approached GippSport AAA to assist and partner with them for a program called Junior United Mentoring Program (JUMP). The JUMP program is an integrated basketball program endorsed by School Sport Victoria. The JUMP program had previously only been delivered once across all of Victoria.

Gippsland was identified by Basketball Victoria as the regional area that they would like to pilot the program due to the partnership with GippSport hosting the Gippsland VicHealth Cup

(Special School Tournament). Partnering EGSS with the Bairnsdale Secondary College was an ideal selection.

The program aimed to partner students with intellectual disabilities with mainstream students on the basketball court, giving them the chance to socialise and learn new basketball skills over a seven week period.

Over the course of the term all students completed either a Level 0 or Level 1 Coaching Course, a short course in refereeing and attended several joint training sessions where all students trained together. At the conclusion of the program both schools played in a round robin tournament day facilitated entirely by the students. This included coaching, refereeing, scoring and playing.
